

PROFILE

I am a passionate Full-Stack Web Developer skilled in building responsive and user-friendly web applications. I work with React, Tailwind CSS, Node.js, Express, and MongoDB to deliver clean and scalable solutions. My focus is on writing efficient code and creating smooth user experiences.

I enjoy collaborating with teams, solving real-world problems, and learning new technologies. With a strong interest in both front-end and back-end development, I aim to contribute to impactful projects while continuously improving my skills.

Full-Stack Web Developer

EDUCATION

Tapovan science school

2022 - 2023

Higher Secondary (12th – Science)

Percentage: 94%

Government Engineering College, Gandhinagar

2024 - Present

Bachelor of Engineering in Computer Engineering

CPI: 7.75

PROJECTS

X-Clone (HTML & Tailwind CSS)

Built a responsive Twitter-like user interface using HTML and Tailwind CSS. Focused on clean UI design, responsiveness, and pixel-perfect styling.

Personal Portfolio Website (React, Tailwind CSS, Express.js)

Developed a professional portfolio website to showcase my skills and projects.

Implemented smooth navigation, responsive design, and backend support with Express.js.

Full-Stack X-Clone (MERN Stack, Cloudinary on AWS)

Created a full-stack Twitter clone using MongoDB, Express, React, and Node.js (MERN).

Implemented authentication, posting, and media upload features.

Integrated Cloudinary (AWS) for storing and managing images securely.
